Partnering with a proven international partner like Hemiton Global lets you build a compliant team in the Emirates within days.

What Is a UAE EOR and How Does It Work?

An Employer of Record (EOR) is a specialized global workforce partner that legally employs staff in a target country on your behalf. While your internal leadership manages the employee's daily tasks, project deliverables, and performance, the EOR handles all back-office operations.

The Power of Local Expertise in the Middle East

Through professional [UAE EOR Services](#), companies bypass the requirement to register a foreign branch or subsidiary. The provider manages local employment contracts, processes multi-currency salary payouts, files end-of-service gratuity calculations, and handles official residence visas—ensuring full compliance with UAE Ministry of Human Resources and Emiratisation (MOHRE) standards.
