born from a mother's love and understanding of
early motherhood.

About us

Nivara Nest is a thoughtfully crafted babywear brand born from a mother's love and understanding of early motherhood. We create soft, breathable, and skin-safe clothing using gentle fabrics like organic muslin, designed to comfort both babies and mothers. Rooted in care, emotion, and cultural values, our products go beyond clothing to become part of a baby's first moments of warmth and security. At Nivara Nest, we believe in slow, intentional design that prioritizes safety, comfort, and connection. Our mission is to build a nurturing space where every mother feels supported and every child is wrapped in softness from the very beginning.
